Canoe safari - half day trip

Night on the river

This tour will give a taste of adventure, away from mainstream tourism, from cities and crowded beaches. The slow flowing narrow Cetina river is ideal even for people without prior experience in canoeing to go exploring. You don't need to paddle much. The river will carry us slowly downstream from our launch point at Gala village some 40 km north of Split to the old Roman stronghold of Trilj, 30 km north of Split. Your senses will adapt quickly to the darkness and you will enjoy 3 hours of wildlife and nature at night in our very stable three-seater Canadian canoes. Passing distanced villages hearing frogs in nearby ponds or birds singing. Our guides are experts in sea kayaking and canoeing and will explain the history, wildlife and nature of this beautiful region along the way. They know the river well. Torches are attached to all canoes.
