

Falco tours - half day trip

Canyoning on the river Cetina

A complete route through the Canyon prepared and adapted for visitors with no previous experience in canyoning.

Experience true adventure in the River Cetina and discover the hidden beauty of its canyon which at points cuts as deep as 120m with numerous small waterfalls, pools and rapids. Take a close-up look at the 40m high Gubavica Waterfall and swim safely in its waters under the supervision of our professional guide.

We organise transportation to the starting point at the village of Zadvarje where you will receive a short briefing and safety equipment. Each trip lasts a minimum of 3 hours. We recommend you bring with you a T-shirt and trousers and some closed sports shoes for walking through water. Cameras brought are at your own responsibility however we can provide waterproof bags for them.

All participants must be capable swimmers.

Essential equipment: reserve clothing, swim wear, training/sports shoes which will be used in the water – sandals are not sufficient (due to sharp undergrowth and jagged stones)

Included in the price: transport to Zadvarje and back, guide, insurance, neoprene clothing, life jacket and helmet.
