

[Sea kayak- half day trip](#)

The last wild coast of the city of Split

The start of the trip is on the Trstenik beach in Split. After a short paddling practice, we slowly start our trip towards east. Soon we approach the last remnant of wild coast in the Split area, which extends to Stobreč. We can watch sheer, yet gentle coastline, which rises from the shallow sea and wild rocks near the seashore coast. We pass by the southern coast of Stobreč, a small fishermen settlement, which was founded in ancient times. Then we approach the Podstrana area. After that we turn to the Bay of Stobreč by paddling through the shallow lagoon, we enter the mouth of the quiet, small river Žrnovnica. Our trip ends in the picturesque port of Stobreč. We paddle very stable, single and tandem kayaks. The whole trip is paddled along the coast. You do not need any special clothing or shoes, just common swimming equipment and hats for the sun protection. There are waterproof chambers in the kayaks, where you can safely store all your personal belongings.
